

The #FuseCiC18 conference - 8th March 2018 - Stafford

What's social enterprise got to do with housing?

We at FuseCiC think the answer is quite a lot and have brought together some of the sectors' leading thinkers to share their thoughts, insights and expertise on how social housing providers and social enterprises can come together to address some of the challenges tenants are facing today.

We've also brought together a series of workshop learning opportunities, including on 'How Virtual Reality (VR) can be used for social good'!

The event is aimed at social housing providers, including public sector housing providers and those working in the social enterprise sector.

Keynote: The Phone Box Millionaire
